

## ***THIS IS THE BREATHER***

*THAT FILTERS DIRT AND MOISTURE*

*THAT ENSURES THE PERFORMANCE OF THE LUBRICANT*

*THAT MAXIMIZES THE UPTIME OF THE EQUIPMENT*

## ***THAT KEEPS YOUR BUSINESS RUNNING***

Imagine how much more dependable your process would be if your lubricants stayed free of particulate and moisture contamination. With particle filtration down to less than one-third of a micron. With far more desiccant per dollar than the competition. With check valve technology that lengthens the life of the desiccant. With a modular cartridge design that cuts replacement costs by 65%. Guardian Breathers – because there's no such thing as too much reliability.
